S R 61 HAN D HELD COR DLESS SCANNER

Intermec's SR61 handheld cordless scanner incorporates the flexibility and rugged design of a handheld scanner with the seamless functionality of wireless communication. The SR61 features a personal area network (PAN) radio based on Bluetooth ${ }^{\text {TM }}$ communication protocol, making scanning easier and safer with no costly cables to damage or become entangled. Users gain hassle-free mobility up to 30 meters ( 100 feet) from the host!

With the ability to interface with Intermec computer products including the 700 Series, CK30, CK31, CK60, and CV60-- the SR61 cordless scanner increases productivity while keeping costs down. Users can connect to one Intermec host device enabling multiple people to scan items for inventory management, picking, shipping and receiving, cross docking, work-in-process, tool crib, and pallet tracking, all with ease.

With multiple scan options, including linear, area and standard range laser, the SR61 allows users to configure the scanner to meet the specific needs of
their environment, whether they include reading specific barcode symbologies, decoding poor quality or damaged barcodes with ease or utilize image capture for proof of delivery and point of service applications.

The SR61 includes Intermec's EasySet ${ }^{\text {TM }}$ software setup tool for easy configuration and personalization. The user can quickly set security options, select beeper tones and volumes, good read and error read responses, and many other customizations.

Scan intensive applications require reliable, accurate scanning and the SR61 delivers. The SR61 is designed to withstand rigorous application environments surviving multiple drops to concrete, cold and hot temperatures, and sealed to withstand dirt and water.

The SR61 delivers 10+ hours of use with a long lasting lithium ion battery that can be easily swapped ensuring minimal downtime.
